ABOUT THE CONFERENCE

The aim of the conference Applied Mechanics 2023 is a meeting and presentation of scientific works of students and young scientists. The organizers would like to invite researchers, scientists and academic staff who are interested in the scientific work of young beginning colleagues as well.

TOPICS OF THE CONFERENCE

- dynamics
- experimental mechanics
- noise and vibrations
- multibody dynamics
- computational mechanics
- biomechanics
- fluid mechanics
- mechatronics
- strength of materials, creep, plasticity
- fracture mechanics and fatigue
- durability and reliability of engineering structures
- structural mechanics

CONFERENCE PROCEEDINGS

The conference proceedings will contain extended abstracts of papers written in English. Instructions and templates necessary for preparation of Extended Abstract could be downloaded from the conference website. The Scientific Committee will select several best articles which, after peer review, will be published for free in [Journal of Mechanical Engineering](#) (Strojnícky časopis).

OFFICIAL LANGUAGES

Conference languages are Czech, Slovak, Polish and English.
